

## **Florida Friendly Landscape (FFL) Design and Material Guideline**

- All landscape design requests, including FFL, must be approved FIRST.
- A minimum of 60% of the yard (visible from the road) must be grass.
- Minimum of 3 to 5 different varieties of FFL plants depending on size of design bed
- Number of FFL plants depends on the size of design bed
- Types of ground cover allowed: pine straw, pine bark, cypress mulch, river rock
- Prohibited ground covering: white rocks, gravel, shell, dirt
- Maximum plant height: 3'
- A minimum of two-tier height requirement for plants in design beds
- For irrigation requirements, plants selection, and landscape design refer to FFL Guide to Plant Selection and Landscape Design.
